

## **QKR FUNCTIONALITY – UPDATES FOR IPHONES**

A majority of questions Qkr get, from school staff now, are related to parents with a very old iPhone operating system installed on their iPhone. Apart from potential problems with Qkr, not updating your operating system, will limit your ability to use a wide range of new apps, and it even exposes you to security flaws or bugs from Apple that have since been fixed.

Apple claim that over 95% of iPhones are now using iOS 7 or 8, though we have found that we have some parents using very old versions of Apple's operating system and this is reason problems may occur such as the Spanish language being displayed on Qkr.

If you experience problems with Qkr, please check your iOS version.
